Rounds to zero.

¹This includes federal funds, such as Library Services and Technology Act (LSTA) funds, that are distributed to public libraries through state library agencies. Other federal funds that are used by state library agencies or library cooperatives to provide services that benefit local public libraries are not included in the table because they are not received as income by public libraries.

²This includes monetary gifts and donations received in the current year, interest, library fines, fees for library services, or grants.

³Response rate is calculated as the number of libraries that reported total income and/or all four sources of income, divided by the total number of libraries in the survey frame. For item(s) with response rates below 100 percent, data for nonrespondents were imputed and are included in the table. Data were not imputed for the outlying areas.

⁴Total includes the 50 states and the District of Columbia but excludes outlying areas and libraries that do not meet the FSCS Public Library Definition.

NOTE: Detail may not sum to totals because of rounding. Data were not reported by the following outlying areas (American Samoa, Northern Marianas, and Virgin Islands). Missing data were not imputed for nonresponding outlying areas.

SOURCE: Institute of Museum and Library Services, Public Libraries Survey, Fiscal Year 2012. Data users who create their own estimates using data from this report should cite the Institute of Museum and Library Services as the source of the original data only. Although the data in this table come from a census of all public libraries and are not subject to sampling error, the census results may contain nonsampling error. Additional information on nonsampling error, response rates, and definitions may be found in Appendix B of the report for the Public Libraries Survey.

Table 21A. Total operating revenue of public libraries and percentage distribution of revenue in the 50 states and the District of Columbia, by source of revenue and population of legal service area: Fiscal year 2012

Rounds to zero.

¹Per capita is based on the total unduplicated population of legal service areas.

²This includes federal funds, such as Library Services and Technology Act (LSTA) funds, that are distributed to public libraries through state library agencies. Other federal funds that are used by state library agencies or library cooperatives to provide services that benefit local public libraries are not included in the table because they are not received as income by public libraries.

³This includes monetary gifts and donations received in the current year, interest, library fines, fees for library services, or grants.

⁴Response rate is calculated as the number of libraries that reported the item, divided by the total number of libraries in the survey frame. For item(s) with response rates below 100 percent, data for nonrespondents were imputed and are included in the table. Data were not imputed for the outlying areas.

⁵Total includes the 50 states and the District of Columbia but excludes outlying areas and libraries that do not meet the FSCS Public Library Definition.

NOTE: Detail may not sum to totals because of rounding. Data were not reported by the following outlying areas (American Samoa, Northern Marianas, and Virgin Islands). Missing data were not imputed for nonresponding outlying areas.

SOURCE: Institute of Museum and Library Services, Public Libraries Survey, Fiscal Year 2012. Data users who create their own estimates using data from this report should cite the Institute of Museum and Library Services as the source of the original data only. Although the data in this table come from a census of all public libraries and are not subject to sampling error, the census results may contain nonsampling error. Additional information on nonsampling error, response rates, and definitions may be found in Appendix B of the report for the Public Libraries Survey.

Table 22A. Total per capita operating revenue of public libraries in the 50 states and the District of Columbia, by source of revenue and population of legal service area: Fiscal year 2012

Guam	1	739	76.0	14.7	9.4	100.0

¹This includes all expenditures other than those for staff and collection, such as binding, supplies, repair or replacement of existing furnishings and equipment, and costs of computer hardware and software used to support library operations or to link to external networks, including the Internet. Includes expenditures for contracts for services, such as costs of operating and maintaining physical facilities, and fees paid to a consultant, auditor, architect, attorney, etc.

²Response rate is calculated as the number of libraries that reported total operating expenditures and/or all three types of expenditures, divided by the total number of libraries in the survey frame. For item(s) with response rates below 100 percent, data for nonrespondents were imputed and are included in the table. Missing data were not imputed for the outlying areas.

³Total includes the 50 states and the District of Columbia but excludes outlying areas and libraries that do not meet the FSCS Public Library Definition.

NOTE: Detail may not sum to totals because of rounding. Data were not reported by the following outlying areas (American Samoa, Northern Marianas, and Virgin Islands). Missing data were not imputed for nonresponding outlying areas.

SOURCE: Institute of Museum and Library Services, Public Libraries Survey, Fiscal Year 2012. Data users who create their own estimates using data from this report should cite the Institute of Museum and Library Services as the source of the original data only. Although the data in this table come from a census of all public libraries and are not subject to sampling error, the census results may contain nonsampling error. Additional information on nonsampling error, response rates, and definitions may be found in Appendix B of the report for the Public Libraries Survey.

Table 24A. Total operating expenditures of public libraries in the 50 states and the District of Columbia and percentage distribution of expenditures, by type of expenditure and population of legal service area: Fiscal year 2012

¹Per capita is based on the total unduplicated population of legal service areas. The determination of the unduplicated figure is the responsibility of the state library agency and should be based on the most recent state population figures for jurisdictions in the state.

²This includes all expenditures other than those for staff and collection, such as binding, supplies, repair or replacement of existing furnishings and equipment, and costs of computer hardware and software used to support library operations or to link to external networks, including the Internet. Includes expenditures for contracts for services, such as costs of operating and maintaining physical facilities, and fees paid to a consultant, auditor, architect, attorney, etc.

³Response rate is calculated as the number of libraries that reported the item, divided by the total number of libraries in the survey frame. For item(s) with response rates below 100 percent, data for nonrespondents were imputed and are included in the table. Data were not imputed for the outlying areas.

⁴Total includes the 50 states and the District of Columbia but excludes outlying areas and libraries that do not meet the FSCS Public Library Definition.

NOTE: Detail may not sum to totals because of rounding. Data were not reported by the following outlying areas (American Samoa, Northern Marianas, and Virgin Islands). Missing data were not imputed for nonresponding outlying areas.

SOURCE: Institute of Museum and Library Services, Public Libraries Survey, Fiscal Year 2012. Data users who create their own estimates using data from this report should cite the Institute of Museum and Library Services as the source of the original data only. Although the data in this table come from a census of all public libraries and are not subject to sampling error, the census results may contain nonsampling error. Additional information on nonsampling error, response rates, and definitions may be found in Appendix B of the report for the Public Libraries Survey.

¹This includes all operating expenditures for electronic (digital) materials. Types of electronic materials include e-books, e-serials (including journals), government documents, databases (including locally mounted, full text or not), electronic files, reference tools, scores, maps, or pictures in electronic or digital format, including materials digitized by the library. Electronic materials can be distributed on magnetic tape, diskettes, computer software, CD-ROM, or other portable digital carrier, and can be accessed via a computer, via access to the Internet, or by using an e-book reader. This includes expenditures for materials held locally and for remote electronic materials for which permanent or temporary access rights have been acquired. It also includes expenditures for database licenses.

²This includes all operating expenditures for other materials, such as microform, audio, video, DVD, and materials in new formats.

³Response rate is calculated as the number of libraries that reported the item, divided by the total number of libraries in the survey frame. For item(s) with response rates below 100 percent, data for nonrespondents were imputed and are included in the table. Missing data were not imputed for the outlying areas.

⁴Total includes the 50 states and the District of Columbia but excludes outlying areas and libraries that do not meet the FSCS Public Library Definition.

NOTE: Detail may not sum to totals because of rounding. Data were not reported by the following outlying areas (American Samoa, Northern Marianas, and Virgin Islands). Missing data were not imputed for nonresponding outlying areas.

SOURCE: Institute of Museum and Library Services, Public Libraries Survey, Fiscal Year 2012. Data users who create their own estimates using data from this report should cite the Institute of Museum and Library Services as the source of the original data only. Although the data in this table come from a census of all public libraries and are not subject to sampling error, the census results may contain nonsampling error. Additional information on nonsampling error, response rates, and definitions may be found in Appendix B of the report for the Public Libraries Survey.

Table 26A. Total collection expenditures of public libraries in the 50 states and the District of Columbia and percentage distribution of expenditures, by type of expenditure and population of legal service area: Fiscal year 2012

Population of legal service area	Number of public libraries	Total collection expenditures			
		Total collection expenditures (in thousands)	Print materials expenditures as percentage of total collection expenditures	Electronic materials expenditures as percentage of total collection expenditures ¹	Other materials expenditures as percentage of total collection expenditures ²

¹Response rate is calculated as the number of libraries that reported total operating expenditures, divided by the total number of libraries in the survey frame. For item(s) with response rates below 100 percent, data for nonrespondents were imputed and are included in the table. Missing data were not imputed for the outlying areas.

²Total includes the 50 states and the District of Columbia but excludes outlying areas and libraries that do not meet the FSCS Public Library Definition.

NOTE: Detail may not sum to totals because of rounding. Data were not reported by the following outlying areas (American Samoa, Northern Marianas, and Virgin Islands). Missing data were not imputed for nonresponding outlying areas.

SOURCE: Institute of Museum and Library Services, Public Libraries Survey, Fiscal Year 2012. Data users who create their own estimates using data from this report should cite the Institute of Museum and Library Services as the source of the original data only. Although the data in this table come from a census of all public libraries and are not subject to sampling error, the census results may contain nonsampling error. Additional information on nonsampling error, response rates, and definitions may be found in Appendix B of the report for the Public Libraries Survey.

¹Per capita is based on the total unduplicated population of legal service areas.

²Response rate is calculated as the number of libraries that reported the item, divided by the total number of libraries in the survey frame. For item(s) with response rates below 100 percent, data for nonrespondents were imputed and are included in the table. Missing data were not imputed for the outlying areas.

³Total includes the 50 states and the District of Columbia but excludes outlying areas and libraries that do not meet the FSCS Public Library Definition

NOTE: Detail may not sum to totals because of rounding. Data were not reported by the following outlying areas (American Samoa, Northern Marianas, and Virgin Islands). Missing data were not imputed for nonresponding outlying areas.

SOURCE: Institute of Museum and Library Services, Public Libraries Survey, Fiscal Year 2012. Data users who create their own estimates using data from this report should cite the Institute of Museum and Library Services as the source of the original data only. Although the data in this table come from a census of all public libraries and are not subject to sampling error, the census results may contain nonsampling error. Additional information on nonsampling error, response rates, and definitions may be found in Appendix B of the report for the Public Libraries Survey.

Table 28A. Percentage distribution of public libraries in the 50 states and the District of Columbia, by total per capita operating expenditures and population of legal service area: Fiscal year 2012

Population of legal service area	Number of public libraries	Total per capita ¹ operating expenditures

Rounds to zero.

¹This includes federal funds, such as Library Services and Technology Act (LSTA) funds, that are distributed to public libraries through state library agencies. Other federal funds that are used by state library agencies or library cooperatives to provide services that benefit local public libraries are not included in the table because they are not received as income by public libraries.

²This includes monetary gifts and donations received in the current year, interest, library fines, fees for library services, or grants.

³Response rate is calculated as the number of libraries that reported the item, divided by the total number of libraries in the survey frame. For item(s) with response rates below 100 percent, data for nonrespondents were imputed and are included in the table. Missing data were not imputed for the outlying areas.

⁴Total includes the 50 states and the District of Columbia but excludes outlying areas and libraries that do not meet the FSCS Public Library Definition.

NOTE: Detail may not sum to totals because of rounding. Data were not reported by the following outlying areas (American Samoa, Northern Marianas, and Virgin Islands). Missing data were not imputed for nonresponding outlying areas.

SOURCE: Institute of Museum and Library Services, Public Libraries Survey, Fiscal Year 2012. Data users who create their own estimates using data from this report should cite the Institute of Museum and Library Services as the source of the original data only. Although the data in this table come from a census of all public libraries and are not subject to sampling error, the census results may contain nonsampling error. Additional information on nonsampling error, response rates, and definitions may be found in Appendix B of the report for the Public Libraries Survey.

Table 29A. Total capital revenue of public libraries and percentage distribution of revenue in the 50 states and the District of Columbia, by source of revenue and population of legal service area: Fiscal year 2012
